#### Amendment

- 2. Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.121(e).
- 3. Applicant fails to file an amendment on claims 1-10.

The explanations in Applicant's Declaration for Reissue, pages 2-4, from items 8 to 17 are informal/non-responsive amendments because it does not comply with 37 CFR 1.121(e), which sets forth the manner of amending claims in reissue applications. A supplemental paper correctly amending the claims is required within a time limit of ONE MONTH from the date of this letter or within the time remaining in the response period of the last Office action, whichever is longer. ## Allowable Subject Matter

ť

4. Claims 1-23 are allowed.

5. The following is an examiner's statement of reasons for allowance:

A conventional optical disk has both pre-recorded address pits and information pits intermingled on a same track. In order to eliminate the influence of crosstalk, applicant claims an optical disk having information pits recorded with a first pit density and address pits arranged in a second pit density which is lower than said first pit density. Applicant claims that said address pit formed in advance to a recording operation on a recording surface with respect to one set of recording tracks adjacent to each other in a radial direction of the optical disk and having a convex or concave shape on the recording surface.
